Nairobi, Kenya

Dear Sir:

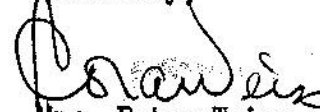

The undernamed students are enrolled at your school. They came to this country to further their education largely through your generosity and interest. This Foundation provided the essential link, transportation from East Africa to your school.

We have enlarged our program and area of responsibility to include a service to each Airlift student while they are studying here. This will include a guidance program, emergency financial assistance, locating summer employment, as well as seeing that each student is taken care of during his vacation periods.

The winter holiday season is soon upon us. Could we call upon you or your staff to find out if the undernamed has a place to stay for this vacation, and if not, could you help locate nearby families with whom they could share a home. This will not only lessen the loneliness so often felt at such a time, but will also help introduce these students to American home life so important to furthering understanding between peoples in these misunderstood times.

Thank you for your kind consideration. We hope that both school and student are benefiting from one another and that your participation in this important program will soon reap the rewards in a better trained population ready to handle its own affairs, as well as a more enlightened America.

Sincerely,

  
Mrs. Peter Weiss  
Student Advisor

P. S. We are encouraging our students not to travel far during vacations so as to save necessary funds and hope that they will not have to buy many of their meals. Would you kindly inform us of the change of address of any of these students.
